Monday, Sept. 14 or Tuesday, Sept. 15, 2020

Program Schedule*

**Morning Sessions**

Next Generation NCLEX (NGN): The NCSBN Clinical Judgment Measurement Model (NCJMM)

The first NGN session of the morning will provide an overview of the foundational NGN work in measuring clinical judgment (CJ) for entry-level nursing. The findings from the functional and strategic practice analysis will be presented along with the foundational research on CJ that led to the development of the NCJMM.

NGN: Sample Case Study and Item Sets

During this session, a demonstration will highlight how the NCJMM has been applied to the development of NGN case studies, including new test items that will be used on the NGN.

NGN: Item Types and Scoring

This session will follow-up from the previous presentation to new item types and scoring provide further examples of the new item types used to measure CJ. Additionally, information about the underlying scoring of the different item types will be presented.

NGN: Q&A

Have questions about the NGN? Our panel of experts is here to provide you with the most current information available about the new exam.

**Lunch**

**Afternoon Sessions**

NGN: Applications to Educational Settings

Looking for effective ways to apply the NCJMM in your classroom? We will partner with a nationally renowned nursing education expert to provide you with concrete tips and techniques.

Candidate Registration Process

We will explore the NCLEX registration process as well as the online resources NCSBN has available to educators and students. This session will highlight what candidates should expect before, during and after the exam.

Standard Setting

Standard setting is a process used by testing professionals to determine the passing score on a test. It is an important step in establishing the validity and legal defensibility of an exam program. The NCLEX-RN® and NCLEX-PN® exams re-evaluate their respective passing standards triennially. During this breakout session, NCSBN staff will discuss the steps involved in setting NCLEX passing standards.

The NCLEX Practice Analysis and Test Plan

Practice analysis studies assist NCSBN in evaluating the validity of the test plan, which guides the content distribution of the NCLEX. This presentation will provide an overview of the evidence-based methodology NCSBN uses to determine what content should appear on the NCLEX-RN and NCLEX-PN exams.

Computerized Adaptive Testing (CAT)

The NCLEX uses CAT. It relies on modern psychometric theory coupled with modern computer-driven administration to produce a psychometrically sound, standardized exam for measuring the minimal competency required to practice safe, entry-level nursing. This break out session will describe the background and methods behind the NCLEX CAT methodology.

The NCLEX Item Development Process

Ever wonder how NCLEX items are developed? This session will explain the processes and steps every NCLEX item goes through before it can be used on the NCLEX. Opportunities for educator involvement will also be highlighted.

Test Security and Accommodations

NCSBN ensures the fair and secure delivery of the NCLEX by administering the exam under strict supervision and security measures. The first part of this session will highlight the security measures NCSBN has put in place for the NCLEX, including incidents that occur at testing centers as well as our confidentiality agreement with both students and educators. During the second part of this session, you will learn about the testing accommodation process, including the roles of the candidate, NCSBN, Pearson VUE and nursing regulatory bodies.

Final Questions and Closing

*Schedule and locations are subject to change. Updated 6.8.20*
Registration Information

Registration must be submitted online at https://www.ncsbn.org/events.htm by Sept. 7, 2020.

Registration
The registration fee for the conference is $60 per person.
The registration fee for NCSBN members is complimentary (Members are NCSBN U.S. Members, Associate Members and Exam User Members.)
Registration includes all virtual sessions. The capacity for the conference is 1,500 attendees on each day and is on a first-come, first-served basis. Online registration will stop once capacity is reached; a wait list will then be started.
Registration may be paid by credit card or check. If paying for multiple registrations by check, submit an online registration for each attendee. Payment is due by Sept. 7, 2020. If payment is not received by the deadline, your registration will automatically be cancelled. Make your check payable to NCSBN and write 2020 NCLEX Conference on it.

Send registration confirmation print out with payment to:
NCSBN
Attn: Mary Trucksa
111 E. Wacker Drive, Suite 2900
Chicago, IL 60601
Phone: 312.525.3600
Fax: 312.279.1032

If you do not receive correspondence from the NCSBN Meetings department within one week of submitting your registration, please contact NCSBN Meetings.

Cancellations
Registration cancellations must be received by Sept. 7, 2020. No refunds will be provided after this date. Attendees must contact NCSBN Meetings to cancel.

Meeting Cancellation Policy
In the event of a cancellation of the program by NCSBN, you will receive a refund of your registration fee. NCSBN is not responsible for any other costs, expenses or damages incurred by a program registrant as a result of any cancellation of the program, including without limitation any nonrefundable airfare or lodging deposits.
