Presentation: Sustainability and Resilience Panel Discussion

Elizabeth Iro, Moderator Admiral Sylvia Trent-Adams

Michael Bloomberg

Luncheon Graduation Ceremony

Dr. Michelle Williams Donna Shalala, Keynote Speaker

**A three-day Leadership** Institute, featuring worldrenowned speakers, for those who complete the certificate program

(sample program)

# PHASE II

 $\bigcirc$ 

#### Partnerships with pre-eminent universities

# TIMELINE

### YEAR 1

•

PILOT PROGRAM: evaluating online platform, courses, attendance and participant performance

### Open to other regulators globally; seek academic partnerships

#### International Center for Regulatory Scholarship

5

### SNEAK PREVIEW

•

### 2019 NCSBN ANNUAL MEETING

#### Who May Attend

During the pilot phase, ICRS will be open only to NCSBN Members, Associate Members, and Exam User members. After completion of this phase, the program will be open to all regulators that have an interest in furthering their knowledge, advancing their skills and extending their network in regulation.

#### PEOLIEST MODE INCODMATION

#### **Program Pathways**

A Competency Assessment will be completed by all participants to determine a recommended pathway. The program will have three distinct pathways:

- Regulation and Governance
- Public Policy and Legislation
- Research and Measurement

CHICAGO AUG. 21-23, 2019

The use of high-fidelity simulation in nursing education has increased dramatically in the last 15 years. As programs have acquired this technology and are learning to use it effectively, the benefits to student learning and nursing educators' ability to evaluate student performance are being realized (Cannon-Diehl, 2009; Foronda, Liu, & Bauman, 2013; Manz, Hercinger, Todd, Hawkins, & Parsons, 2013).

Concurrently, educational programs at the registered nurse (RN) and practical and vocational nurse (PN/VN) levels are struggling to obtain adequate clinical placements because there is more competition among nursing programs and hospitals are eliminating or decreasing the number of students allowed in the clinical setting. (Lambton, 2008; Miller, 2014; Nehring, 2008). As programs face these challenges, it is understandable that there

Study examined the educational outcomes of nursing know clinical competency, and readiness for practice of hundr nursing students who received either traditional clinical e ences, 25% simulation experiences in place of traditional c experiences, or 50% simulation experiences in place of tradiclinical experiences. These new graduates were then folfor the first 6 months of their clinical practice to evaluate clinical competency and readiness for practice. Before the cation of the study results, a descriptive survey was conduc document the current regulatory environment on simulatie serve as a benchmark for future regulatory comparisons. Suwere administered to the members of NCSBN.

clinical setting. (Lambton, 2008; Miller, 2014; Nehring, 2008). As programs face these challenges, it is understandable that there the District of Columbia, and four U.S. territories. Four states

The instructor assigned an article to go along with this week's instruction. It is provided in the module as a downloadable PDF.

One final step: the instructor has given the class a writing assignment for this module. The assignment can be submitted directly online.

Instructors grade and provide feedback for assignments directly to the student, allowing quick communication. Students then have the opportunity to apply feedback and re-submit assignments.
