About the Participating Programs

The U.S. Nursing Education dashboard displays information about students and faculty of nursing programs that participated in NCSBN's Annual Education Survey. The dashboard contains multiple pages that can be accessed using the left column. Each page has filters that can be used to refine the report results.

NCSBN

Leading Regulatory Excellence

Our Operating Philosophy: ONE NCSBN

One NCSBN is not just a slogan; it is how we function as one team.

The concept of One NCSBN unites us around our collective purpose in the world, how we prioritize that purpose in our work, and how we interact with each other

To understand One NCSBN, we need to focus on four key perspectives:

- **How we see our organization in relation to the world**
- **How we see ourselves in relation to our mission**
- **How we see our work in relation to our mission**
- **How we see ourselves in relation to our colleagues**

The Four Pillars of One NCSBN

DUTY (Our Organization) Understanding our organization's profound responsibility in the world- the vital role of protecting the public and the trust in nursing.

UNITY (Our Mission)

Embracing our shared commitment to this mission as the foundation of everything we do, seeing ourselves as partners in a shared calling rather than separate departments or boards.

PRIORITY (Our Work) Aligning our daily efforts with what matters most - advancing our mission and supporting our members above all else.

SYNERGY (Our Colleagues) Building trust and collaboration, knowing we accomplish more together than any of us could alone.

DUTY
UNITY
PRIORITY
SYNERGY
