NCSBN Nursing Regulation

NCSBN, the world leader in nursing policy and regulatory research. NCSBN conducts cutting-edge, award-winning research that supports evidence-based regulatory and policy decisions. Our national simulation study led to regulation that was adopted by states, transforming care across the country. Our Pre-licensure RN study provided critical insights into the efficacy of the changes nursing programs made during the pandemic. Our National Nursing Workforce Survey, the largest of its kind, uncovered significant workforce challenges from stress and burnout. Findings that will help the world avoid a workforce crisis. Stay up to date on vital research by subscribing to our official journal, The Journal of Nursing Regulation NCSBN Research, Leading Regulatory Excellence.
